SUMMARY

Salesforce Certified Administrator with 3+ years of experience in CRM configuration, user management, and process automation across lending and real estate domains. Skilled in Flows, Validation Rules, Approval Processes, Reports & Dashboards, and Agentforce deployments. Proven track improving data quality and efficiency through UAT.

EDUCATION

New York Institute of Technology

Master of Science, Computer and Information Sciences — GPA: 3.63

University Institute of Engineering & Technology

Bachelor of Engineering, Information Technology

Manhattan, NY

Sept. 2022 – May 2024

Aug. 2017 – June 2021

EXPERIENCE

Salesforce Administrator

Jan. 2025 – April 2026

Cloud Maven Inc.

Newark, NJ

- Administered end-to-end Salesforce org for Lending Manager, a Salesforce-native loan origination and servicing platform supporting full loan lifecycle from credit application intake through disbursement and repayment scheduling.
- Configured and maintained Flows, validation rules, approval processes, page layouts, profiles, permission sets, reports & dashboards, and custom fields to enforce business rules, streamline user access, and reduce manual processing effort by **25%**.
- Managed sandbox environments, change sets, and deployment pipelines to promote configuration across dev, QA, and production orgs while maintaining data integrity and release stability.
- Led end-to-end UAT cycles and agile testing coordination across release sprints, partnering with development teams on Agentforce-ready Lightning component rollouts and trigger handler architecture reviews.

Salesforce Administrator

Aug. 2024 – Jan. 2025

SilverXis Inc.

New Jersey

- Configured Salesforce workflows, validation rules, Visualforce pages, page layouts, and custom objects to support real estate and home services operations, improving team adoption, system usability, and data consistency across the org.
- Executed data migration and field mapping from legacy sources using Data Loader with structured testing and deduplication, ensuring record accuracy and consistency across 10,000+ migrated records with zero data loss.
- Built and maintained Salesforce reports and dashboards providing stakeholders with real-time visibility into pipeline metrics, task completion rates, and operational KPIs, enabling data-driven decision-making across business units.

Salesforce Administrator

Nov. 2021 – Aug 2022

Business Thrust Techsoft Pvt. Ltd.

India

- Delivered Salesforce CRM configuration including custom objects, Visualforce pages, workflows, and validation rules with technical documentation, driving a **30%** improvement in team delivery efficiency and reduced manual effort.

Junior Software Engineer

Jan. 2021 – Aug. 2021

Anviam Solutions Pvt. Ltd.

India

- Delivered feature development and agile sprint enhancements on large-scale enterprise applications, improving delivery timelines, code quality, and technical documentation across the team while maintaining structured testing standards.

PROJECTS

Lending Manager (Loan Origination & Servicing Platform) | *Salesforce Flows, Apex, LWC, REST APIs, SOQL*

- Configured and enhanced end-to-end loan lifecycle workflows including borrower onboarding, document routing, approval chains, and repayment allocation automation; produced technical documentation for all API design touchpoints.
- Managed sandbox deployments and change set promotion across environments; led system integration testing and Apex trigger reviews maintaining **85%+** code coverage and release-ready org health.

Agentforce Service Assistant | *Agentforce, Einstein AI, Prompt Builder, Flows, Apex, LWC*

- Designed an Agentforce-powered service assistant using Prompt Builder and Einstein AI to automate case summarization, routing, and resolution suggestions, reducing average agent handle time from **8 to 5 min** across the support org.
- Built Apex actions and LWC components for agent handoff workflows, integrating platform events to trigger real-time updates on open cases; validated end-to-end system integration through structured API design and testing protocols.

TECHNICAL SKILLS

Salesforce Administration: Salesforce Flows, Validation Rules, Approval Processes, Profiles & Permission Sets, Page Layouts, Reports & Dashboards, Data Loader, Sandbox Management, Change Sets, User Management, CRM Configuration

Salesforce Development: Apex Triggers, Batch & Queueable Apex, Lightning Web Components (LWC), Visualforce, SOQL, REST/SOAP APIs, Platform Events, Trigger Handler Pattern, System Integration, Data Migration, JSON

AI & Agentforce: Agentforce, Einstein AI, Prompt Builder, AI-assisted Development, Copilot Actions

Testing & Documentation: UAT, Test Planning, Requirements Gathering, Documentation, Agile/Scrum, Jira

Other: Git, VS Code, Postman, SQL, PostgreSQL, JavaScript, ReactJS, NodeJS, Field Mapping, Cross-functional Collaboration

CERTIFICATIONS & COURSES

Salesforce Certified Platform Administrator ADM-201(Jan 2026), **Git Bootcamp**(Apr 2021), **Web Developer**(July 2020)
