SUMMARY

Salesforce Certified Administrator with 3+ years of Salesforce Administrator and Developer experience in CRM configuration, Apex, LWC, Flow automation, security, integrations, releases, and data governance. Skilled in REST/SOAP APIs, SOQL, Visualforce, reports, dashboards, UAT, documentation, Agile delivery, and Agentforce/Einstein AI use cases. Proven record improving platform efficiency, adoption, and release quality.

EDUCATION

New York Institute of Technology

Master of Science, Computer and Information Sciences — GPA: 3.63

University Institute of Engineering & Technology

Bachelor of Engineering, Information Technology

Manhattan, NY

Sept. 2022 – May 2024

Aug. 2017 – June 2021

EXPERIENCE

Salesforce Administrator | Salesforce Developer | Software Engineer

Jan. 2025 – April 2026

Cloud Maven Inc.

Newark, NJ

- Administered and enhanced Lending Manager, a Salesforce-native loan origination and servicing platform, supporting user access, loan intake, credit review, approval routing, disbursement, repayment, and production support workflows.
- Configured objects, fields, page layouts, record types, validation rules, approval processes, Flows, reports, dashboards, profiles, roles, permission sets, and security controls, reducing manual processing effort by **25%**.
- Developed Apex classes, triggers, batch jobs, queueable Apex, Lightning Web Components, Visualforce updates, SOQL logic, REST/SOAP API integrations, and platform-event automation while maintaining **85%+** test coverage.
- Managed sandboxes, change sets, release readiness, CI/CD support, data migration, UAT, troubleshooting, documentation, and Agentforce-ready automation with stakeholders across Agile sprint planning, demos, and post-production support.

Salesforce Administrator | Salesforce Developer | Software Engineer

Aug. 2024 – Jan. 2025

SilverXis Inc.

New Jersey

- Configured Salesforce workflows, Flows, validation rules, Visualforce pages, page layouts, record types, custom objects, user permissions, and field-level security for real estate and home services operations.
- Executed Data Loader migration, field mapping, deduplication, cleansing, import/export validation, and integration testing across 10,000+ records, preserving data integrity with zero data loss.
- Built stakeholder reports, dashboards, custom report types, and operational KPI views while supporting requirements gathering, process mapping, training, documentation, adoption, and quality assurance measures.

Salesforce Administrator | Salesforce Developer | Software Engineer

Nov. 2021 – May 2022

Business Thrust Techsoft Pvt. Ltd.

India

- Delivered Salesforce CRM configuration and development including custom objects, workflows, Apex-supported automation, Visualforce pages, validation rules, documentation, and testing, driving a **30%** delivery efficiency improvement.

Junior Software Engineer

Jan. 2021 – Aug. 2021

Anviam Solutions Pvt. Ltd.

India

- Delivered feature development and Agile sprint enhancements on enterprise applications, improving delivery timelines, code quality, technical documentation, stakeholder communication, and structured testing standards.

PROJECTS

Lending Manager (Loan Origination & Servicing Platform) | *Salesforce Flows, Apex, LWC, REST APIs, SOQL*

- Configured and enhanced borrower onboarding, document routing, approval chains, case-style service tasks, repayment allocation, role-based access control, audit-friendly data visibility, and API design documentation.
- Managed sandbox deployments and change set promotion across environments; led system integration testing, Apex trigger reviews, performance troubleshooting, release validation, and org health monitoring.

Agentforce Service Assistant | *Agentforce, Einstein AI, Prompt Builder, Flows, Apex, LWC*

- Designed an Agentforce-powered assistant using Prompt Builder and Einstein AI for case summaries, intelligent routing, next-best actions, conversational support, and automated response recommendations.
- Built Apex actions and LWC handoff components, integrating platform events and external API patterns; validated privacy, access control, responsible AI governance, and end-to-end UAT scenarios.

TECHNICAL SKILLS

Salesforce Administration: Flows, Validation Rules, Approval Processes, Record Types, Profiles, Roles, Permission Sets, Field-Level Security, Page Layouts, Reports & Dashboards, Data Loader, Sandbox Management, Change Sets, User Management

Salesforce Development: Apex Triggers, Apex Classes, Batch & Queueable Apex, Lightning Web Components (LWC), Visualforce, SOQL, SOSL, REST/SOAP APIs, Platform Events, Trigger Handler Pattern, Governor Limits, JSON

Integrations & Clouds: Salesforce APIs, Service Cloud, Experience Cloud, Marketing Cloud, Data Migration

AI, Security & Compliance: Agentforce, Einstein AI, Prompt Builder, AI Summaries, Audit Controls, Data Privacy

Delivery Tools: UAT, Test Planning, QA Validation, Requirements Gathering, Process Mapping, Agile/Scrum, CI/CD, Git, VS Code, Postman, Jira, SQL, PostgreSQL, JavaScript, ReactJS, NodeJS

CERTIFICATIONS & COURSES

Salesforce Certified Platform Administrator ADM-201(Jan 2026), **Git Bootcamp**(Apr 2021), **Web Developer**(July 2020)
